

The Prosperity Symbol

Draw this symbol in your own hand on a piece of paper on a Monday, Wednesday, Thursday Friday or Sunday as soon after the new moon as possible. Try using golds and greens when drawing it. For instance, green ink on a golden piece of construction paper, or different shades of green and gold markers or crayons on a light green sheet of paper, etc. Be creative.

Save this symbol and use it as a focal point during your daily prosperity magic. Fix your gaze softly anywhere within the symbol while you are chanting. It is a combination of the energies of the Moon, Jupiter, the Sun, Venus, Mercury and the Earth.
